We asked:

Professional
Status

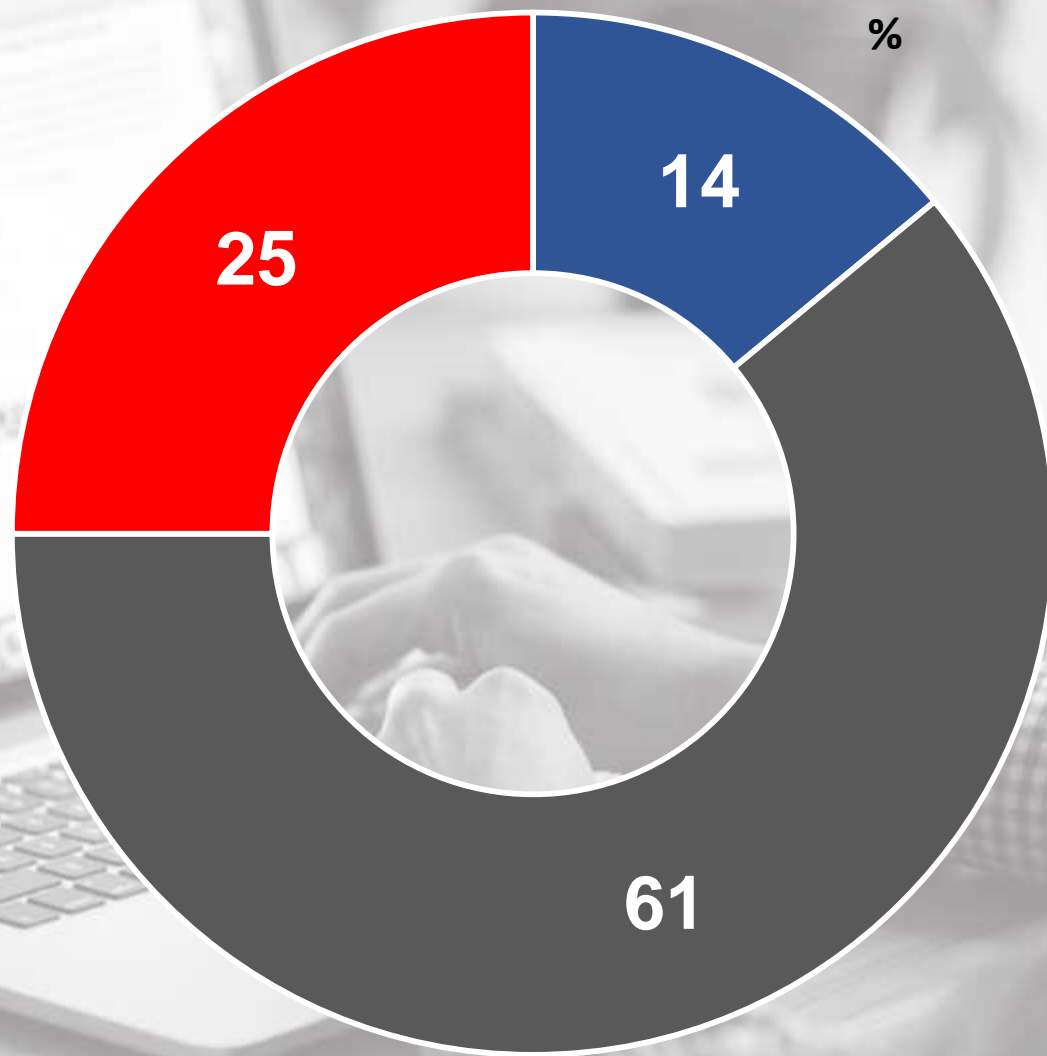

Financial
Status

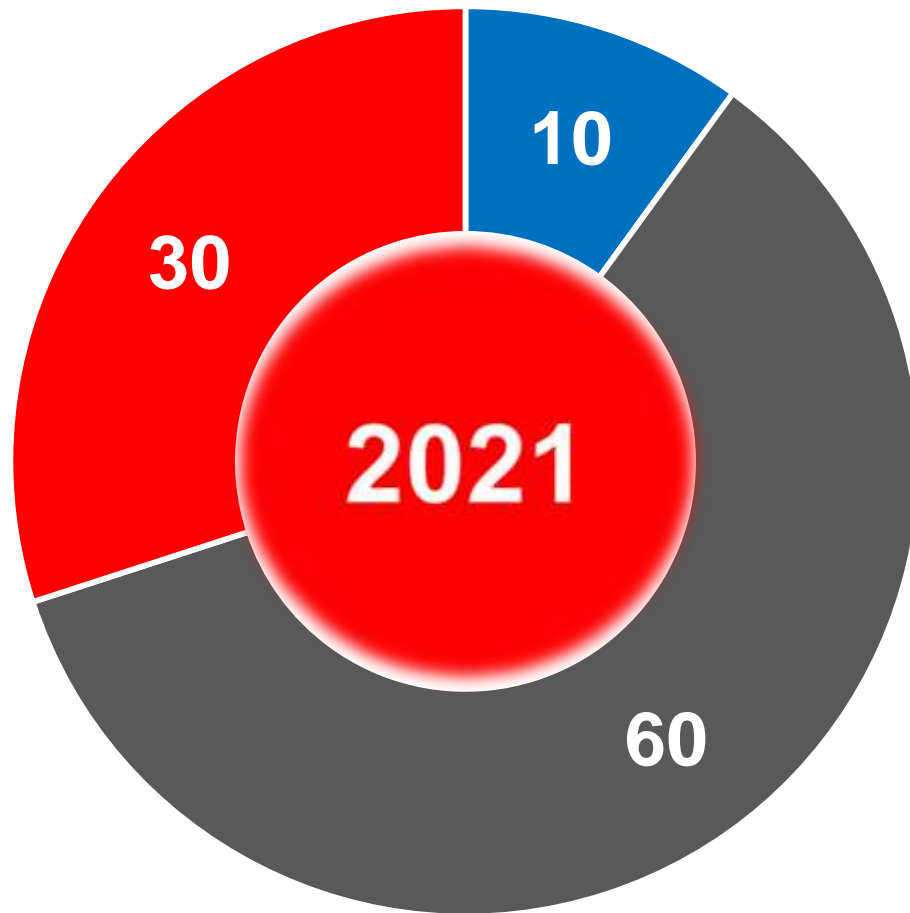

Comparison
2020-21-22

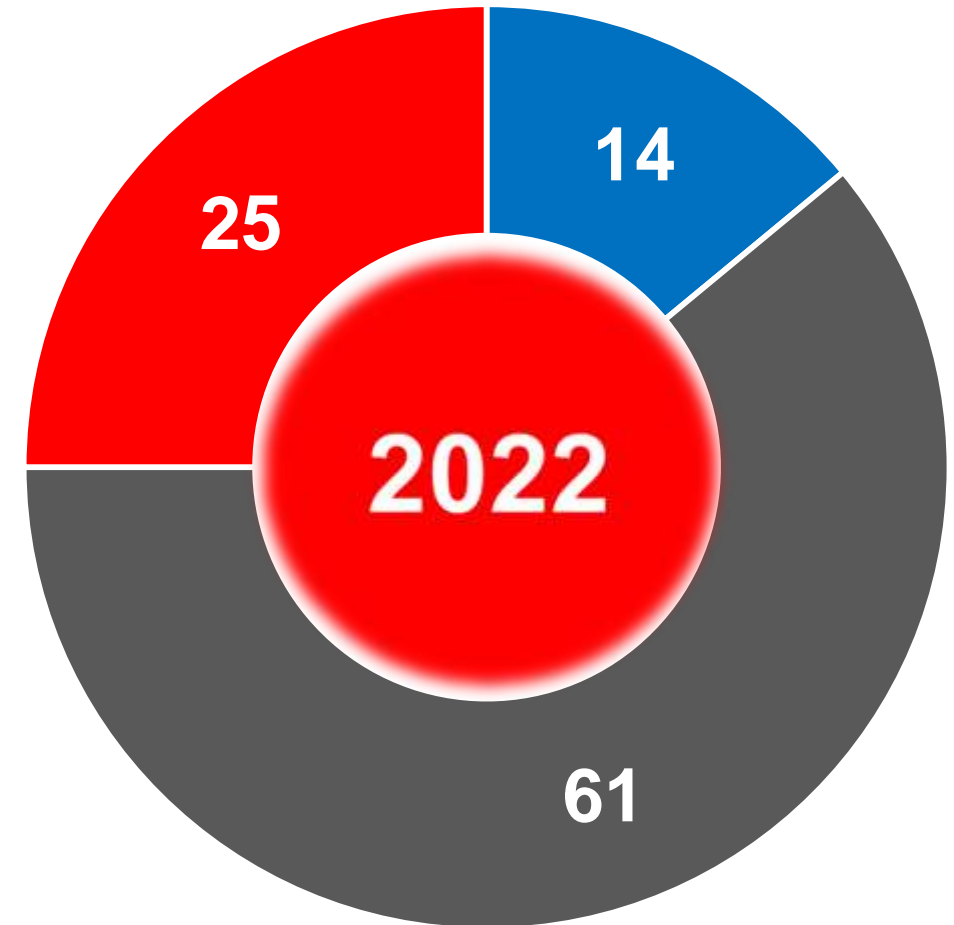

Three out of five
Greeks report same
professional status
vs. two years ago,
while one out of four
are found with a
worse professional
situation

Compared to a similar study conducted last year, Greeks whose professional situation has improved during covid has increased, while those reporting a worse professional status have decreased

%

■ Better status

■ Same status

■ Worse status

Those who managed to improve professionally, have done so because :

%

**I created new sources of business / took
opportunities that have risen during covid times**

53

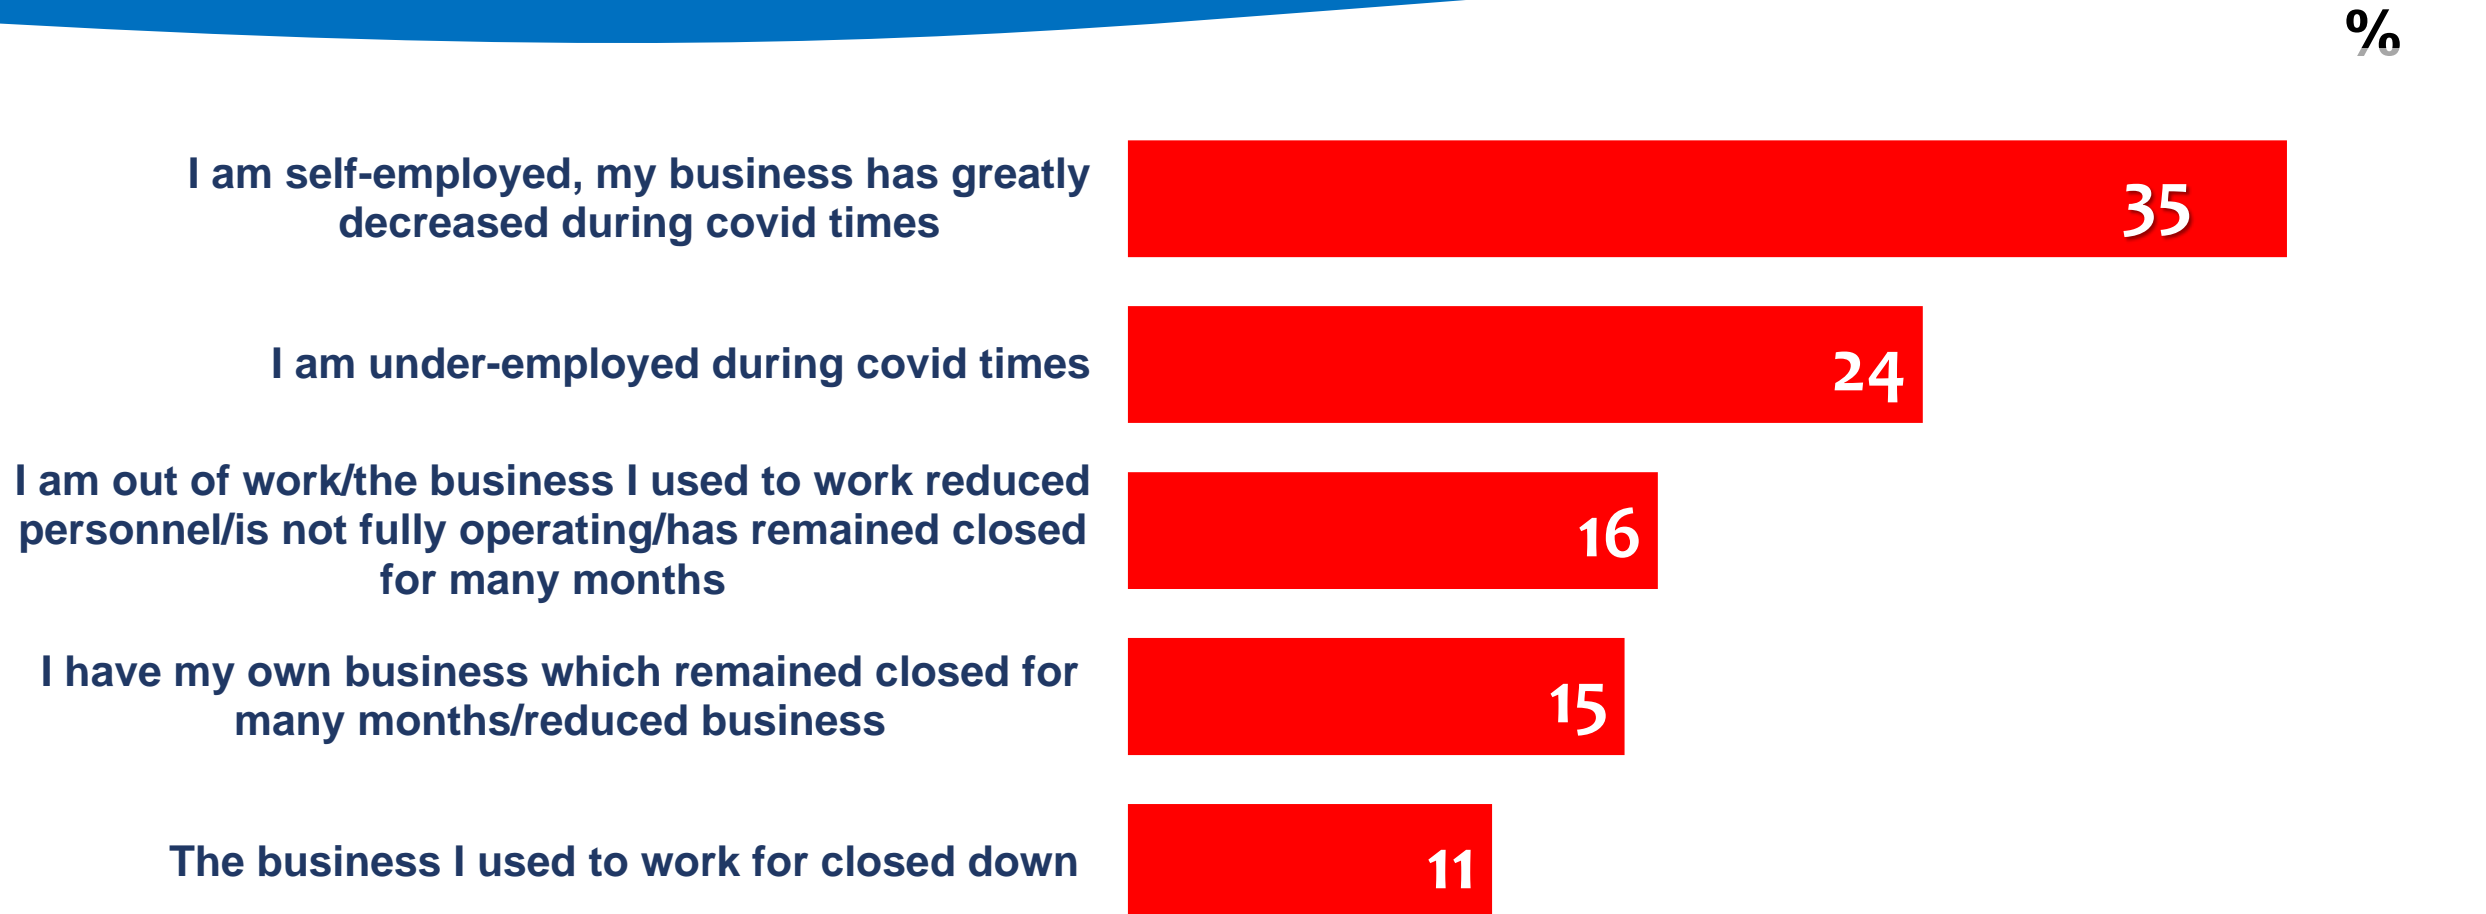

**I developed new skills that allowed me to
expand my professional opportunities**

35

**I make better use of my working hours because
I work remotely**

22

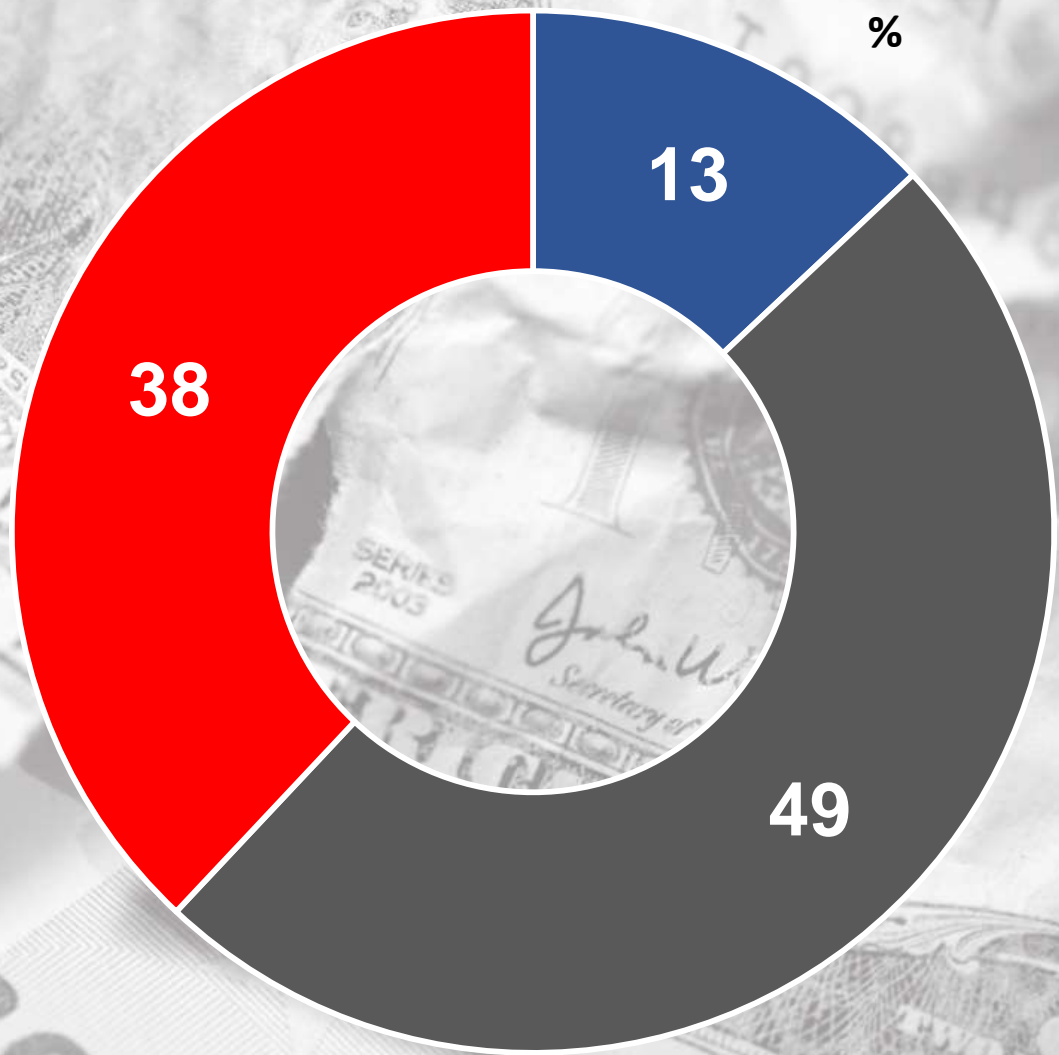

For those who report a worse professional status nowadays versus two years ago, the reasons are :

How is Greeks' financial status today versus two years ago, before the start of the pandemic?

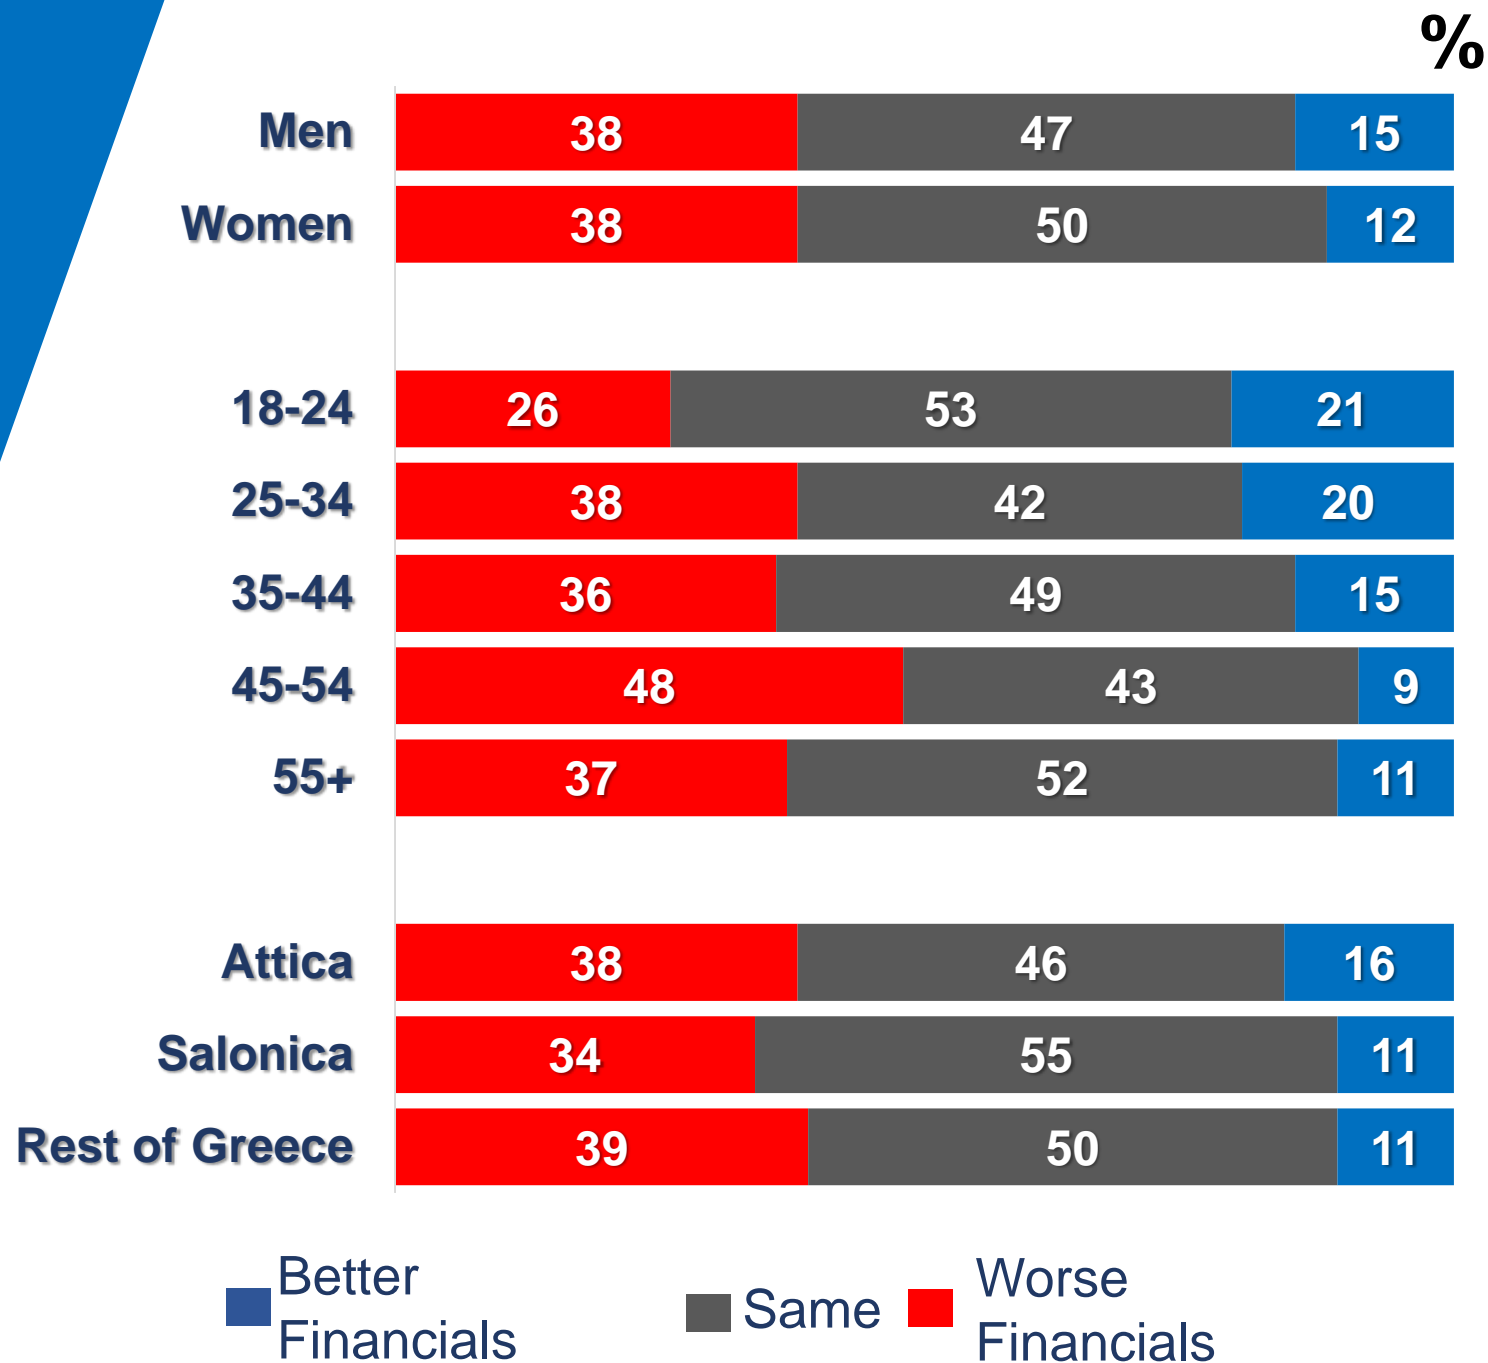

After two pandemic years, one in two Greeks find their financials at the same status, while almost two out of five report a worse financial status today

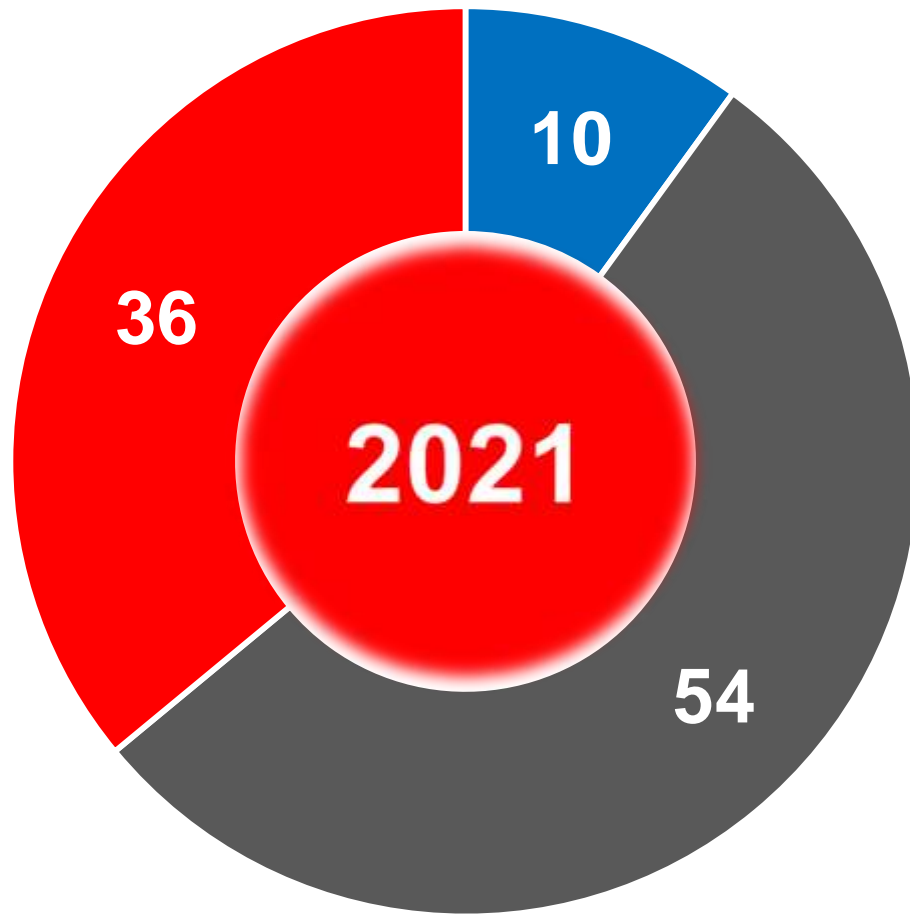

%

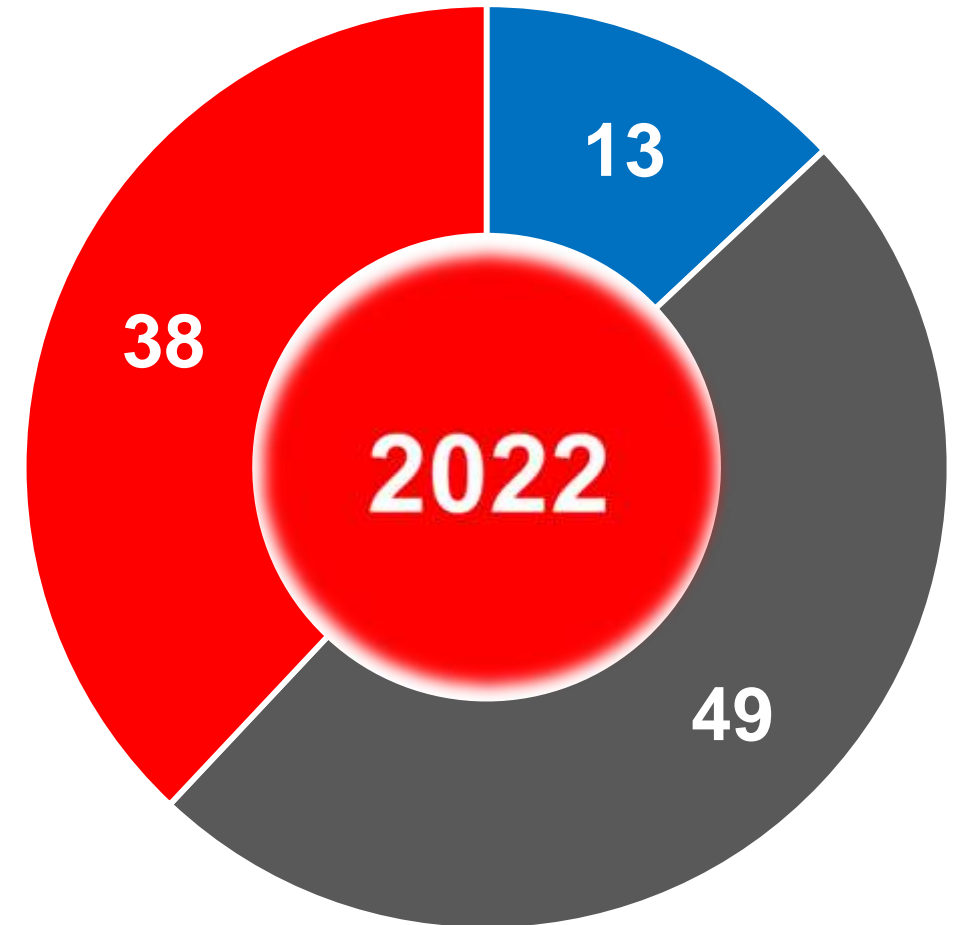

The 45-54 age group report their financials worsening the most during the last two years, while younger ages seem to be the most favored in this respect

Compared to last year's study, both the proportion of those whose financials improved and that whose financials' worsened have marginally increased

%

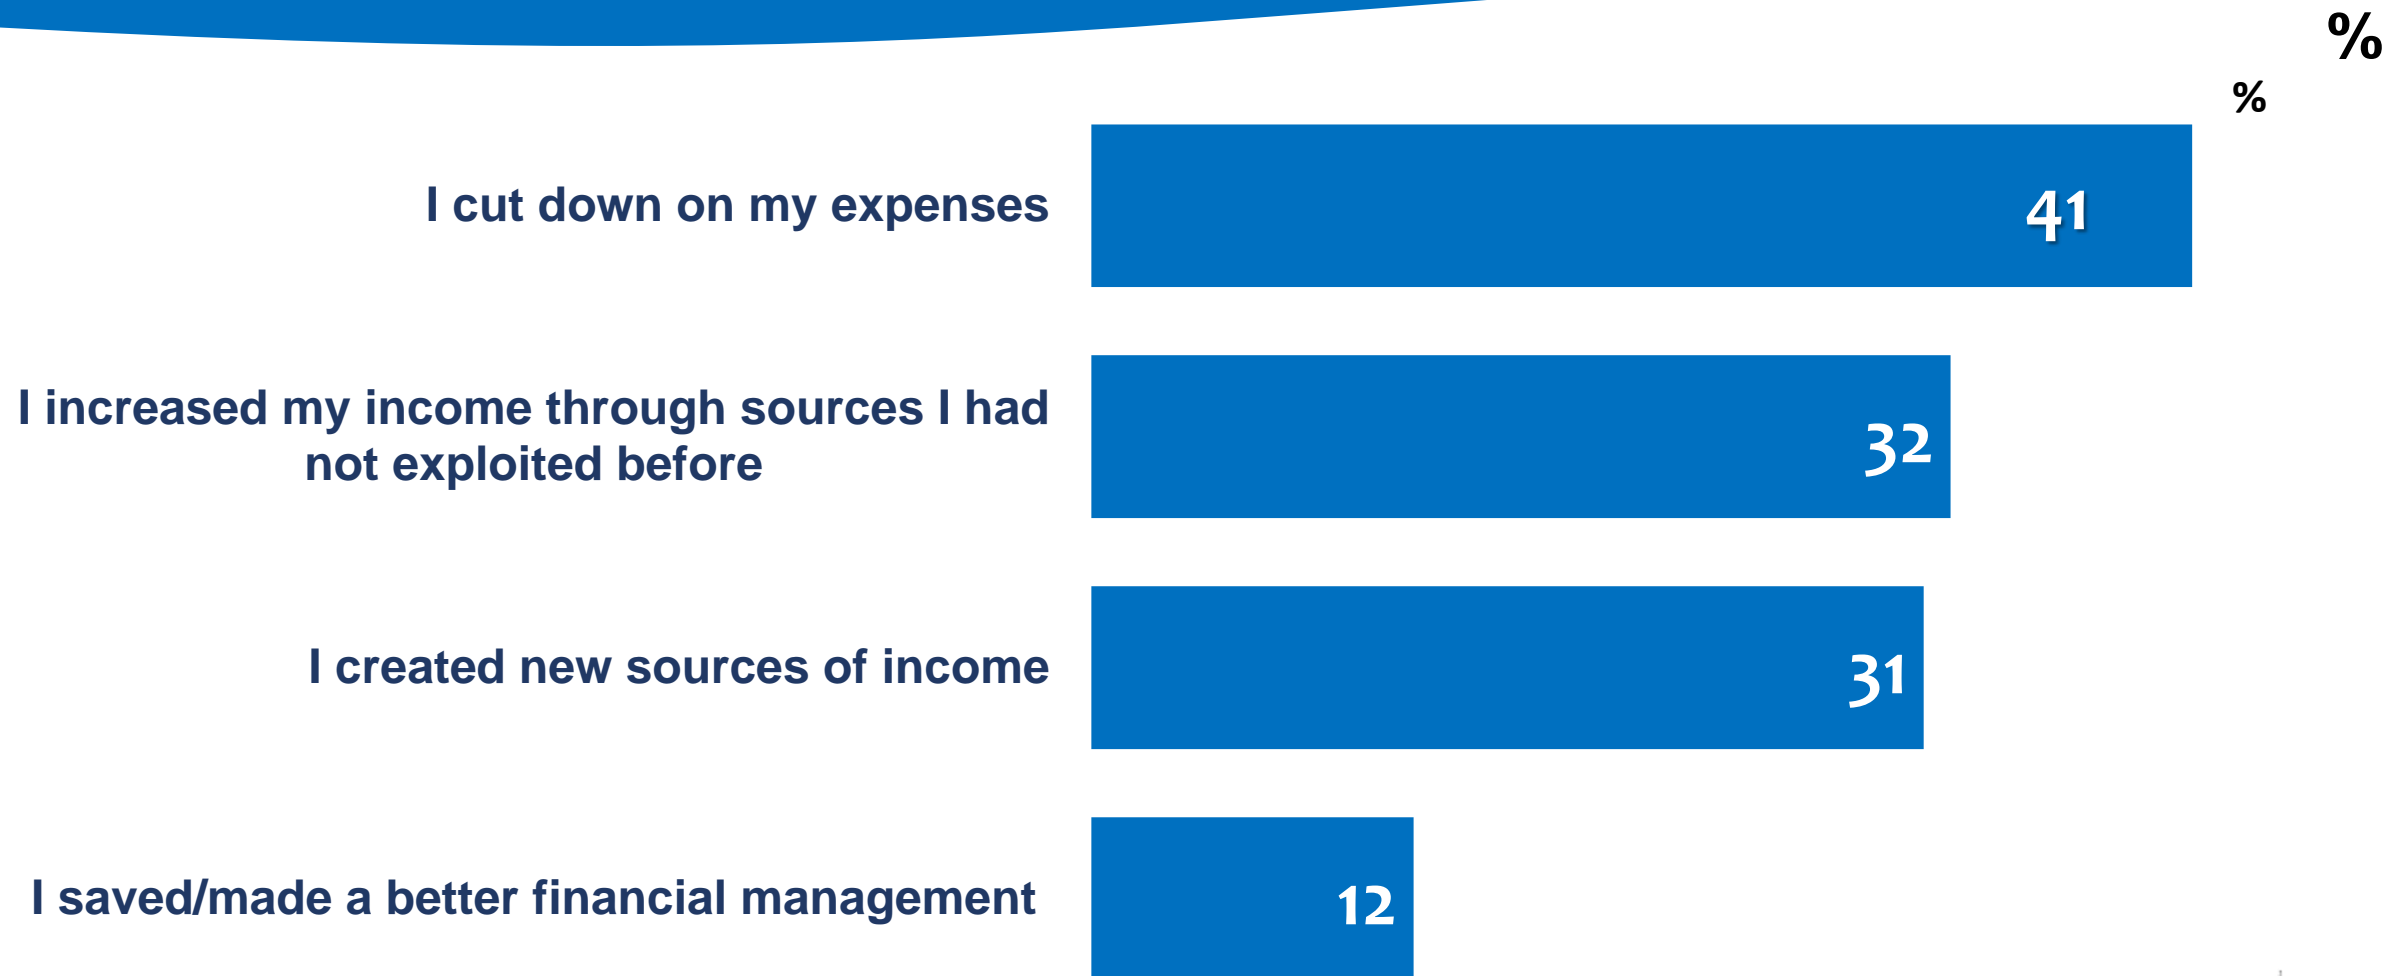

■ Better

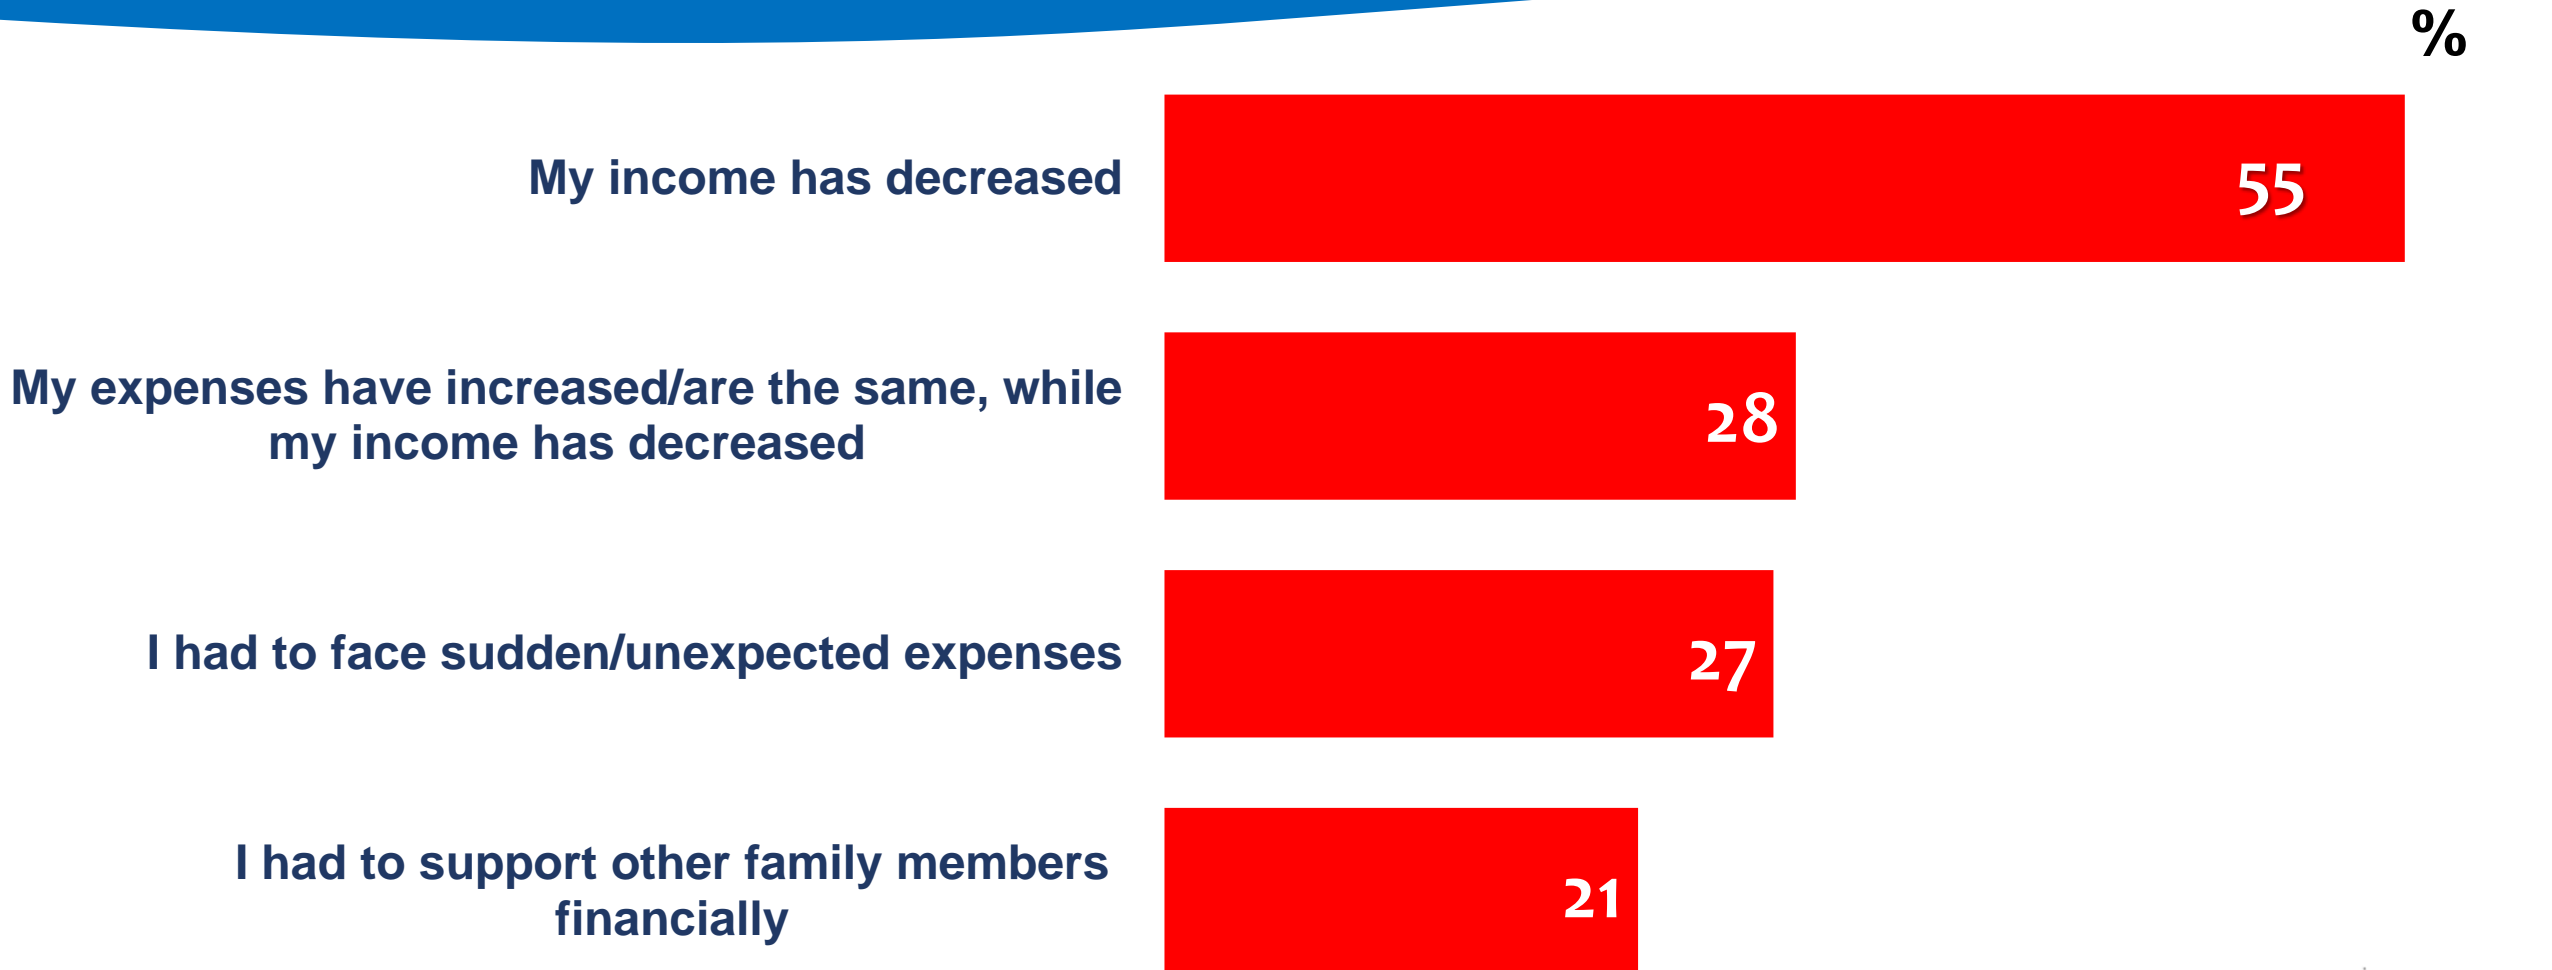

■ Same financial status

■ Worse

Those who managed to improve their financial status versus two years ago, did so because :

On the other hand, the reasons for those whose financials are worse today versus two years ago, are :
