2 weeks rolling data (15/2 – 1/7/2022) ages 18-64 Total Greece

When you are in the market for such purchases, from which of these would you consider purchasing?

Brand X
Consideration [% Yes]
Gender: Female

Brand Y
Consideration [% Yes]
Gender: Female

Questions to consider

Qu.1

**How would you feel if you
had these data at hand?**

Qu.2

**What would you do differently if
you had these data at hand?**

Case II

How can research data help monitoring the impact of a crisis event and guideline actions via identifying the target groups which were most impacted?

(Anonymous case : a negative event can happen to anyone)

Buzz net (%positive - % negative)

2 weeks rolling data (2/1 – 11/9/2022) ages 18-64 Total Greece

*In the past two weeks, for which of these supermarkets have you heard something **positive**? And for which of these have you heard something **negative** during the last two weeks?*

— Total net buzz

Buzz net Analysis : Positive - Negative

2 weeks rolling data (2/1 – 11/9/2022) ages 18-64 Total Greece

Buzz net Analysis by Gender

2 weeks rolling data (2/1 – 11/9/2022) ages 18-64 Total Greece

Buzz net : Analysis by Area

2 weeks rolling data (2/1 – 8/9/2022) ages 18-64 Total Greece

Buzz net : Analysis by Age

2 weeks rolling data (2/1 – 11/9/2022) ages 18-64 Total Greece

Questions to consider

Qu.1

**How would you feel if you
had these data at hand?**

Qu.2

**What would you do differently if
you had these data at hand?**

Data? Yes, of course!

- ▶ ✓ **Continuous : Speed & Complexity**
- ✓ **Real Time : Alertness 24/7**
- ✓ **Granular : Acute Targeting**

**Thank
you**
